

WE WANT OUR FUTURE BACK

LET'S GO AND GET IT BACK ON MARCH 28!

We are citizens at work, sick of the decay, depression and illegality that we see around us. We want to react and to build a better future. If we do not get rid of our current political class we will never see it: this is why we fostered a civic movement outside of the coalitions, with help by Beppe Grillo.

To start, we need your vote to send one of us to act as a "watchdog" of citizens' interest in the Region's Council. Abstaining is useless, spread the word!

LET'S REPRESENT OURSELVES ON OUR OWN A BETTER FUTURE IS POSSIBLE

LET'S HIRE HIM

Civil servants must be the citizens' employees for a limited time: they should serve the public interest for a few years according to directives from their voters, and then go home before they stick there forever.

The person that we suggest you to hire as your employee in the Region's Council is:

VITTORIO BERTOLA

35 year old, from Turin, never convicted, never a party's member
Degree in Electronical Engineering at the Politecnico, 110 cum laude
One of the top Italian experts in new technologies and the Internet
Small entrepreneur, former CTO of Vitaminic
Consultant to Kofi Annan for the Internet strategy of the U.N.
Invited speaker at conferences in over 30 countries
Blogger, videomaker and free journalist over the net

If you want to know more, read his program, get clarifications on his proposals or make questions:

www.bertola.eu - vb@bertola.eu - www.facebook.com/bertola

If you deem him qualified, you can hire him by making a cross over the five stars symbol and writing his name on the ballot:

BERTOLA

This leaflet was commissioned and paid for by the candidate with his own savings (we do not receive public funding of any kind). Please, if you do not use it, give it to someone else or throw it into the paper recycling bin. Thank you!
